PROFESSIONAL EXPERIENCE

Eureka Logic

Developer

June 2016 – Current

- Designed and launched two eCommerce stores
- Prototyped a marketplace for selling of one featured item for businesses

Bank of America

Project Manager

March 2012 – March 2016

Officer; Cnslt - Apps Dev

May 2008 – March 2012

- Managed Application Releases – planning and managing execution and implementation
- Conducted deep dives, technology audits, coordinated workflow and compiled remediation plans for bringing line of business developed applications into mortgage technology infrastructure
- Managed the relocation of 60 servers and machines from Getzville to West Seneca locations
- Managed Declining/Not Permitted projects to upgrade application's technology (servers, OS, frameworks, software)
- Analyzed client requirements; developed scope of work, diagrammed solutions

- Remediation of legacy applications onto bank platform
- Team Lead on remediation of a suite of windows services and websites that connect an external vendor application to bank hosted systems for real-time inquiry and update.
- Developed a web app used by call center associates to determine scripts for customers to determine eligibility for Imminent Default programs. The application enabled the customer service team to decrease the number of call center associates taking calls from about 300 to 20 and the average call length from 55 minutes to under 15 minutes.
- Developed a web app, windows service and winform application to determine, track and execute weekly REO charge offs of loans. The solution reduced decision errors to <1%, increased efficiency tenfold by automating part of the process, and ensured the weekly deadline was met 100% of the time.
- Worked with LOBs to gather requirements, create functional specs and build custom solutions that solved problems or needs.
- Automated >100 daily and weekly jobs to pull or send data to MSP.

Honors & Awards:

2015 Gold Award - Received for eMason remediation effort (2 websites and 40 web services).

2015 Bronze Award - Received for project management of bringing Mortgage Line of Business apps into Mortgage Technology.
